Winners Announced for Infrastructure Projects of the Year

Winning Projects Announced During Ceremony at the 8th Global Infrastructure Leadership Forum

NEW YORK -- CG/LA Infrastructure Inc., yesterday announced the recipients of their prestigious 2015 Global [Projects of the Year Awards](#) during the [8th Global Infrastructure Leadership Forum](#) in New York City. All projects were presented at the Leadership Forum and the winners were selected in five categories by industry executives around the world.

"It is an honor to recognize these project sponsors who are systematically changing the economic, competitive, and opportunity landscapes of their countries," said Norman Anderson, President and CEO of CG/LA Infrastructure. "Their innovative ways of directing, designing, and funding infrastructure builds are changing the way we think about infrastructure development and will leave a lasting impact on the industry."

Aconex - a global technology company providing mobile and web-based collaboration software for project information and process management - is the official sponsor for the 2015 Project of the Year Awards.

"Aconex works with the largest projects in the world and are proud to recognize these as the Projects of the Year," said Leigh Jasper, CEO and Co-Founder of Aconex. "We are pleased to be the Project of the Year sponsor, recognizing the exceptional finalists and winners as they manage time and budgetary constraints to successfully deliver these critical projects."

The winners are as follows:

Strategic Project of the Year:

- Qatar: Hamad International Airport

Job Creation Project of the Year:

- United States: Amtrak's Gateway Program

Green/New Infrastructure Project of the Year:

- Ethiopia: Corbetti Geothermal

Finance Project of the Year:

- Canada: New Bridge for the St. Lawrence River

Engineering Project of the Year:

- Saudi Arabia: King Abdulaziz Airport

The Global Infrastructure Leadership Forum drew more than 400 industry executives from all aspects of an infrastructure project lifecycle - including lenders and investors, law, design, engineering and construction firms, and owner operators - to focus on projects with business opportunities within the next 3-18 months. The Forums are open to the public and more information can be found at cg-la.com.
