Winners Announced for Infrastructure Project of the Year

*Winning Projects Announced During Ceremony at the 6th North American Strategic
Infrastructure Leadership Forum*

Washington, DC -- CG/LA Infrastructure Inc., announced the recipients of their prestigious 2014 Projects of the Year Awards during the 6th North American Strategic Infrastructure Leadership Forum in Washington, DC. The awards were selected from an initial list of 400 projects valued at \$370 billion.

Aconex - a global technology company providing mobile and web-based collaboration software for project information and process management - is the official sponsor for the 2014 Project of the Year Awards.

"As we saw at CG/LA's North American Leadership Forum, increased infrastructure spending on large and complex projects is making best practice and continuous process improvement more important than ever," said Leigh Jasper, CEO and Co-Founder of Aconex. "Aconex is proud to be the Project of the Year sponsor, recognizing the exceptional finalists and winners as they manage risk and quality to successfully deliver these critical projects."

The winners are as follows:

Strategic Project of the Year:

- San Antonio Water System - Texas

Job Creation Project of the Year:

- Port Everglades Master Plan - Florida

Green/New Infrastructure Project of the Year:

- AES Energy Storage – California

Finance Project of the Year: (Tie)

- Rapid Bridge Replacement P3 - Pennsylvania

- Texas Central Railway High Speed Rail - Texas

Engineering Project of the Year:

- Bay Delta Conservation Plan Tunnels - California

The North American Strategic Infrastructure Leadership Forum drew more than 300 industry executives from all aspects of an infrastructure project lifecycle - including lenders and investors, law, design, engineering and construction firms, and owner operators - to focus on projects with business opportunities within the next 3-18 months. The Forums are open to the public and more information can be found at cg-la.com.
